## Lake Trasimeno

Magione is adjacent to the Lake Trasimeno. It is a tectonic lake with no natural outlets, covering an area of 128 km<sup>2</sup> and reaching a maximum depth of 6 m. Due to its shallow average depth, the lake is heavily affected by water evaporation caused by solar radiation, especially during the hot season, which results in significant fluctuations in its volume and all its chemical and physical parameters, making it a very fragile system. Despite this, Lake Trasimeno is full of life, characterized by the presence of reeds and fishing activity.

ANONIMO 13 MARZO 2023 17:56 UTC

The city of Magione includes 15 hamlets. Some of them border directly on the shores of Lake Trasimeno, also including the neighbouring state-owned water parts.

ANONIMO 16 MARZO 2023 12:39 UTC

nell'ambiente ma anche -per gli additivi contenuti nella plastica- il trasporto di specie aliene che viaggiano con i frammenti<sup>1</sup>.

Le conseguenze dell'inquinamento da microplastiche, delle nanoplastiche (frammenti ancora più ridotti) e degli agenti patogeni che tendono a proliferare in queste condizioni, determinano impatti sulla biodiversità, sull'economia e sulla salute degli ecosistemi e degli organismi.

Ma, mentre per le acque marine questi effetti sono studiati da diversi anni, per le acque interne gli studi sono ancora limitati. Dagli anni '70, la comunità scientifica ha realizzato molti studi sulla presenza e la dispersione delle microplastiche. Di recente, tuttavia, è cresciuta la consapevolezza che anche le acque dolci non sono immuni da questo problema. Trasportate dai corsi d'acqua e dagli scarichi fognari, le macro e le microplastiche stanno aumentando anche nei laghi, definendo una nuova e pericolosa minaccia per questi fragili ecosistemi semi-chiusi, che potrebbero essere più sensibili a questo problema, in quanto incapaci di far disperdere velocemente le particelle.

Tra le principali cause dell'inquinamento da plastica vanno menzionate principalmente l'inefficace gestione dei rifiuti urbani e la scarsa sensibilizzazione del cittadino. Per questo è necessario agire per prevenire e migliorare la gestione dei rifiuti, non solo nei comuni del bacino lacustre, ma anche nell'entroterra.

### Il progetto Life Bluelakes nel lago Trasimeno

In questo contesto, il progetto europeo Life Blue Lakes si propone di affrontare il problema delle microplastiche nei laghi italiani e tedeschi attraverso un approccio integrato che combina azioni di governance, formazione, strumenti tecnologici e di monitoraggio, azioni di informazione e sensibilizzazione rivolte alle istituzioni, ai soggetti interessati e ai cittadini.

## Socio-cultural, environmental, historic, etc. features of your territory

DAVIDE F 16 MARZO 2023 14:56 UTC

### Regional Park of Lake Trasimeno

Magione is part of the Regional Park of Lake Trasimeno, covering an area of 13,001 hectares, and was established on March 3, 1995. The protected area includes, the lake itself, and the three islands, Polvese Maggiore, and Minore, located within the lake. There are several plants and animals species of conservation interest present in the park, such as the invertebrate commonly called the stag beetle (*Lucanus cervus*), the Italian pike (*Esox flaviae*), and the European pond turtle (*Emys orbicularis*).

ANGELICA SEBASTIANI 15 MARZO 2023 15:36 UTC

### Museo della Pesca e del Lago Trasimeno - S. Feliciano (Magione, PG)

The Fishing Museum is situated in San Feliciano a hamlet in the municipality of Magione. The museum has a fixed staging and room dedicated to temporary exhibitions and educational workshops for schools and groups.

The staging of the museum is based on the well-stocked

heritage of knowledge collected over decades of investigations carried out by many scholars and researchers who have investigated the "culture of water", the language, the history and the life and the evolution of the communities settled along the shores of the lake.

DAVIDE F 15 MARZO 2023 15:33 UTC

## The Tower of the Lombards

The Tower of the Lombards was built between the 11th and 12th centuries by the Cavalieri Gerosolimitani, now the Cavalieri dell'Ordine di Malta. The tower, built on a hill, is 30 meters tall and has a square plan, allowing it to control or block the flow of provisions coming especially from the northern shore of Lake Trasimeno and headed towards Perugia.

### Torre dei Lombardi - Magione (PG)

La torre alta trenta metri è visitabile fin nella parte più alta ed è munita di ascensore; dalla sua sommità si gode un meraviglioso panorama su tutta la vallata e a suo tempo garantiva un capillare controllo sul territorio vista la sua posizione sommitale.

ANONIMO 15 MARZO 2023 15:59 UTC

## MALTA

Il castello dei Cavalieri di Malta, o Badia, è un complesso fortificato ricordato utilizzato dai viandanti che desideravano raggiungere Roma o Gerusalemme. L'edificio si trova nel paese di Magione in via Cavalieri di Malta, 31(PG) vicinissimo al lago Trasimeno ed è stata la residenza del principe e gran Maestro dell'Ordine di Malta.

Quando fu eretto era caratterizzato solo da due costruzioni collocate a "L", sovrastate da una torre campanaria. Successivamente fu ampliato fino a raggiungere una pianta quadrata, con un grande cortile centrale, protetta da una cinta muraria con robusti torrioni posizionati negli angoli.

Nel Quattrocento vediamo la definitiva trasformazione del complesso in un castello con l'aggiunta della torre rotonda, di un implemento della parte fortificata e della creazione di una corte loggiata.

Le fastose stanze del primo piano dimostrano che l'antica struttura ormai aveva assunto gli elementi distintivi di una nobile dimora, pur conservando particolari protettivi e disponibilità di ospitare i pellegrini.

"La Badia" fu sempre un significativo luogo di sosta per papi, sovrani e autorevoli personaggi che transitavano lungo la via e l'ospitalità dei

## Main challenges to improve the quality of life of the residents

ANGELICA SEBASTIANI 15 MARZO 2023 18:21 UTC

## Differentiated waste

To encourage and increase differentiated waste collection within the municipality of Magione and in all of hamlet.

ANGELICA SEBASTIANI 15 MARZO 2023 18:37 UTC

## urban green areas

To take care of urban green areas for example by cutting the grass, rearranging the flower beds, picking up abandoned waste or increasing the playgrounds for the children.

DAVIDE F 15 MARZO 2023 18:32 UTC

## More services

The municipality of Magione and the local community are subject to the phenomenon of depopulation and a solution to this problem is the increase in services and alternatives both in the field of entertainment and the well-being of citizens

## Social animation activities (civic participation) in your territory

DAVIDE F 13 MARZO 2023 15:13 UTC

### Humus Music Fest a Monte del Lago

Il Festival, organizzato dai ragazzi dell'associazione musicale Doremilla e giunto ormai alla sua terza edizione, si svolgerà q presso la spiaggia Albaia di Monte del Lago.

## Il carnevale Maggionese

The Maggionese Carnival takes place on the last Sunday of carnival season. The streets of the town are filled with allegorical floats and children in costumes. During the festival, the large masquerade characters are paraded through the streets on floats, and together with the local mask, they create the trial of "Toni". The characteristic figure of the Maggionese carnival is the puppet of Toni, which stands over two meters tall. At the end of the parade, in Piazza G. Matteotti, Toni is put on trial as he embodies all the misdeeds of the people of Maggione and is condemned to be burned. The sentence is executed, as tradition dictates, on the following Tuesday in the public square.

DAVIDE F 15 MARZO 2023 16:39 UTC

## The "Segavecchia"

The "Segavecchia" is an ancient ritual that has its roots in pre-Christian times. It takes place in the middle of Quaresima and is a propitiatory rite that celebrates the rebirth of nature through

the symbolism of what is old and, consequently, must die in order to allow for its own renewal. The “vecchia” represents all the negative aspects of the past season and therefore pays with her own life. The fact that after being "segata" she comes back to life, symbolizes the return to life after the winter break. The representation revolves around a large, very old oak tree that must be cut down. The two woodcutters, called "segantini," agree with the owner and begin to strike the oak tree at the base until it falls. Then an old man enters the scene, desperately searching for his wife, whom he recognizes in the fallen oak. At the end of the story, the old woman, on the brink of death, suddenly stands up and begins to dance joyfully with the protagonists of the show.

## **Main environmental challenges in your territory and measures currently being implemented**

**ANGELICA SEBASTIANI** 15 MARZO 2023 16:24 UTC

### **Purifier area revelopment at Monte del Lago**

In Monte del Lago, the former purifier was demolished and the area was rehabilitated with the planting of trees and shrubs selected from among the native species already present on site.

**ANGELICA SEBASTIANI** 15 MARZO 2023 16:34 UTC

### **New stretch of Trasimeno cycle route**

It has been introduced a new stretch of the S.Savino-Dirindello cycle path, which extends for about 750 m, and connects the already existing parts to the north and the south of San Savino. This intervention contributes to giving continuity to the Trasimeno cycle route. A stretch of about 1.6 kilometers was then made more usable, new tourist signs were affixed and an e-bike station was installed at the entrance to the "La Valle" nature oasis.

# ITALY\_MAGIONE\_Problems, resources & ideas

Presentation of local communities - resources, problems, needs, social and environmental profiles

SCUOLA IAD UNIVERSITÀ DI ROMA TOR VERGATA 24 FEBBRAIO 2023 16:24 UTC

## LOCAL NEEDS related to GREEN SUSTAINABILITY

ANGELICA SEBASTIANI 15 MARZO 2023 17:27 UTC

### Institutional level

Improvement of the dialogue with the institutions to deal with sustainable issues.

## PRIORITY AREAS OF INTERVENTION

DAVIDE F 16 MARZO 2023 15:02 UTC

### The importance of biodiversity

Magione and the area around Lake Trasimeno are biodiversity hotspots. The Lake Trasimeno Park features forests characterized by the presence of willows, poplars, and pines, which are important for both consolidating the lake's banks and creating shelters and refuges for a large bird population. As for the ichthyofauna, it is characterized by the presence of about twenty species such as tinca, cavedano, scardola, luccio, anguilla, e cobite, which are now considered partially threatened. In the area surrounding the lake, there are "Praterie umide seminaturale con piante erbacee alte," characterized by Giuncheti Mediterranei. Over the years, various non-native species have been introduced, causing an imbalance in the aquatic ecosystem. Among the introduced alien species are carpa, carassio, pesce gatto, latterino ed il persico reale.

ANGELICA SEBASTIANI 15 MARZO 2023 18:06 UTC

### Job opportunities

Lack of job opportunities for young people of the community.

## DESIDERATA and ASPIRATIONS for a green transition in YOUR community

ANGELICA SEBASTIANI 15 MARZO 2023 18:31 UTC

### Partecipation on "green" issues

- Improve a "community" identity
- Listening to the needs of the actors in the area, by assuring presence and dialogue;
- Implement major job opportunities about the theme of green jobs;
- improve inclusiveness

DAVIDE F 15 MARZO 2023 18:40 UTC

### Green jobs opportunity

In addition to providing financial resources, work is also a socialization mechanism, a source of social exchange and introspection. Thanks to it it's possible to strengthen to strengthen the individual sense of usefulness and belonging. Creating new opportunities such as Green Jobs, linked to sustainability, well-being and protection of the planet is of fundamental importance for the community

## IDEAS for an action dealing with the identified priority areas

ANGELICA SEBASTIANI 15 MARZO 2023 17:38 UTC

### Organization of artistic event

Organization of an artistic event in which to artistically represent the drought.

ANGELICA SEBASTIANI 15 MARZO 2023 17:41 UTC

### Raising awareness on the protection of biodiversity

Activities designed to raise awareness of the importance of maintaining ecosystems and natural habitats.

ANGELICA SEBASTIANI 15 MARZO 2023 18:01 UTC

### Responsability to protect

To learn for recognizing native flora is helpful to protect plant species

DAVIDE F 15 MARZO 2023 18:02 UTC

## Educational farm

To offer educational and training activities, as well as pet therapy, at a farm aimed at people of all ages in order to promote understanding and knowledge of the agricultural world and strengthen the contact with nature through practical experiences and workshops in the field. The aim is to involve families, schools, and associations in promoting interest and respect for nature, animals, and the environment.

ANGELICA SEBASTIANI 15 MARZO 2023 18:04 UTC

## Edu.care

Actions to raise awareness on a more conscious use of water resources.

ANGELICA SEBASTIANI 15 MARZO 2023 18:12 UTC

## The power of job opportunity

Implement job opportunities for young people in synergy with the realities of Magione. This is a paramount issue to oppose the phenomenon of moving to cities in search of better employment.

DAVIDE F 15 MARZO 2023 18:08 UTC

## Silent disco

The promotion of nightlife through a silent disco in order to involve young people who often move out of Magione to look for similar events and entertainment. The silent disco allows through the use of wireless headphones to listen to loud music, eliminating noise pollution and to use such events even in the city center.

DAVIDE F 15 MARZO 2023 18:17 UTC

## Alternative mobility

The Ciclovia del Trasimeno is a circular route that runs along the lake and is about 57 km long. In order to improve and raise awareness among people of alternative mobility, it is possible to organize cycling routes and itineraries around the lake

# AVAILABLE RESOURCES and ASSETS

---

ANGELICA SEBASTIANI 15 MARZO 2023 18:22 UTC

## The main resources and assets of Magione.

- Museo della Pesca e del Lago;
- conference rooms
- Agriturismo "La Casa di Campagna" (Educational Farm);
- Associazione Pro Loco di Magione
- City centre
- Lake beach
